Understanding Anger and Forgiveness

What Is Anger?

Anger is a basic human emotion that arises in response to perceived injustice, frustration, hurt, or threat. It can manifest physically, such as increased heart rate, clenched fists, or tense muscles, and emotionally, as irritation, rage, or resentment. While anger can be a signal that something is wrong, if left unresolved, it can lead to destructive behaviors and long-term emotional distress.

What Is Forgiveness?

Forgiveness is a conscious, deliberate decision to let go of resentment and negative feelings toward someone who has hurt you. It does not necessarily mean excusing the wrongdoing or forgetting the pain but involves releasing the hold that anger has on your life. Forgiveness fosters emotional healing, improved mental health, and often leads to improved relationships.
