Introduction to Flyfishing in New Zealand South Island

The South Island of New Zealand is renowned globally for its pristine rivers, alpine lakes, and diverse ecosystems that support a vibrant array of freshwater fish species. The region's remote wilderness, combined with its welcoming local communities, makes it an ideal location for both novice and seasoned flyfishers seeking authentic angling experiences.

Key highlights of South Island flyfishing include:

- Over 20,000 kilometers of accessible waterways
- A variety of fish species including trout and salmon
- Scenic backdrops that add to the thrill of fishing
- Well-established guides and lodges catering to international visitors

Geography and Topography of South Island

Understanding the geography of South Island is crucial for planning successful fishing expeditions.

Major River Systems

The island's river systems are the lifeblood of its flyfishing scene, each offering unique challenges

and opportunities:

- Clutha River (Matau-au): The second-longest river in New Zealand, renowned for its large brown and rainbow trout.
- Waimakariri River: Known for its fast-flowing waters and trophy trout.
- Rakaia River: Features extensive braided channels, ideal for dry fly fishing.
- Mataura River: Famous for its wild brown trout.
- Haast River: Located in Westland, excellent for remote fishing experiences.

Alpine Lakes and Tributaries

Numerous lakes such as Tekapo, Pukaki, and Wanaka serve as productive fisheries, often supported by glacial-fed streams.

Terrain and Accessibility

- The terrain ranges from mountainous highlands to lowland plains.
- Many waterways are accessible via well-maintained roads, but some require off-road vehicles or walking to reach remote spots.
- The region's rugged terrain offers both challenges and rewards for anglers seeking solitude and pristine fishing conditions.

Fish Species and Their Habitats

The South Island's waters are home to several key fish species, each with specific habitat preferences.

Brown Trout (*Salmo trutta*)

- Most abundant and sought-after species.
- Found in rivers, streams, and lakes.
- Known for their fighting spirit and size potential, with some exceeding 10 pounds.
- Prefer clear, oxygen-rich waters with gravel bottoms.

Rainbow Trout (*Oncorhynchus mykiss*)

- Often stocked but also self-sustaining in many waters.

- More adaptable to different water conditions.
- Recognizable by their vibrant coloration, especially during spawning.

Salmon (*Oncorhynchus tshawytscha* and *Oncorhynchus salmon*)

- **Significant runs occur in certain rivers, especially during the salmon spawning season.**
- **Fish are usually targeted during their upstream migration.**

Other Species

- Smallmouth and largemouth bass are rare but can be found in some lakes.
- Eels and other native species are present but less common targets for flyfishers.

Best Times for Flyfishing in South Island

Timing is crucial for optimizing fishing success.

Season Overview

- Spring (September to November): Rising water levels, spawning activity, and hatch events increase fishing opportunities.
- Summer (December to February): Warmest months; prime for dry fly fishing, especially in early mornings and evenings.
- Autumn (March to May): Cooler temperatures and changing foliage make for scenic outings; excellent for large trout feeding.
- Winter (June to August): Fewer anglers; challenging conditions but rewarding for experienced flyfishers willing to brave colder waters.

Hatch Periods and Insect Activity

Understanding local insect hatches is vital for matching the hatch:

- Mayflies: Peak hatch in late spring and early summer.
- Caddisflies: Active from spring through early autumn.
- Stoneflies: Present year-round but most active during warmer months.
- Midges: Available year-round, particularly during colder periods.

Fly Patterns and Techniques

Matching the local insect life is key to success.

Common Fly Patterns

- Dry Flies: Adams, Elk Hair Caddis, Parachute Adams, and Royal Wulff.
- Nymphs: Pheasant Tail, Hare's Ear, Zebra Midge, and Prince Nymph.
- Streamers: Woolly Bugger, Clouser Minnow, and Sculpin patterns.

Effective Techniques

- Dry Fly Fishing: Ideal during hatch periods; requires delicate presentation.
- Indicator Nymphing: Using strike indicators to detect subtle bites.
- Euro Nymphing: High-stick nymphing for deep pools.
- Streamer Fishing: For larger, aggressive fish in deeper waters.

Fishing Tips

- **Vary your retrieve speed and pattern presentation.**
- **Pay attention to water conditions; clear water demands stealthy approaches.**
- **Use appropriate tippet sizes; typically 4-7X for trout.**

Gear and Equipment Recommendations

Choosing the right gear enhances success and enjoyment.

Rod and Reel Setup

- Rod Length: 9 to 10 feet rods for better reach and control.
- Line Type: Weight-forward floating lines for dry flies; sinking lines for nymphing and streamer fishing.
- Reel: Durable with smooth drag system; saltwater reels can be advantageous for river conditions.

Waders and Clothing

- Breathable, waterproof waders are essential.
- Layered clothing suitable for variable weather.
- Wading boots with good grip are necessary for slippery rocks.

Accessories and Tools

- Fly box with a variety of patterns.
- Forceps and nippers.
- Polarized sunglasses to spot fish and reduce glare.
- Sun protection: sunscreen, hat, and UV-protective clothing.
- Flotation devices if venturing into fast-flowing waters.

Local Guides and Lodges

To maximize your experience, consider engaging local guides who possess intimate knowledge of the waters.

- Guided Tours: Offer expert instruction, access to private waters, and safety.
- Lodges and Accommodation: Range from luxury lodges to budget motels situated near prime fishing spots.
- Permit and Licensing: Guides often handle licensing; ensure you have the correct permits for the region.

Regulations and Conservation

Respect for local regulations ensures sustainable fishing.

- Licensing: A current New Zealand fishing license is mandatory.
- Bag Limits: Vary by region; typically, daily limits are set for trout and salmon.
- Seasonal Restrictions: Some waters are closed during spawning seasons.
- Catch and Release: Encouraged to preserve fish populations.
- Protected Areas: Certain rivers and lakes are designated as conservation zones.

Environmental and Ethical Considerations

Flyfishers are encouraged to practice sustainable fishing:

- Handle fish gently and minimize stress.
- Use barbless hooks where possible.
- Leave no trace: pack out all rubbish.
- Respect wildlife and other users of the waterways.
- Support local conservation initiatives.

Additional Tips for a Successful Trip

- Research and Planning: Use local resources, maps, and guides.
- Weather Preparedness: Be ready for sudden changes in weather.
- Safety: Inform someone of your plans, especially when venturing into remote areas.
- Patience and Persistence: Success often comes after multiple attempts and observations.
